2May	2	Setting up git, organizing work in git, planning next steps	2	Setting up git, organizing work in git, planning next steps	2	Setting up git, organizing work in git, planning next steps	2	Setting up git, organizing work in git, planning next steps
7May	0.5	searching APIs			1	setting up design ideas in Figma	1	exploring APIs
9May	3	Intro React, creating a map component, adding file token for hiding API key	3	Intro React, creating a map component, adding file token for hiding API key	3	Intro React, creating a map component, adding file token for hiding API key	3	Intro React, creating a map component, adding file token for hiding API key
15May	4	getting API to data table firstly in python						
20 May			4	navigation bar implementation, layout & functions	2	designing basemap		
21May	2	creating data table for train time					2	hours creating data table for train time
23May	1	checking progress, planning futher steps	1	checking progress, planning futher steps	1	checking progress, planning futher steps	1	checking progress, planning futher steps
29 May	3	creating moving train			3	info popup creation & design	1	modal window creation
30May	2	rearranging things, working on API, etc	2	rearranging things, working on API, etc	2	rearranging things, working on API, etc	2	rearranging things, working on API, etc
1June			3	implementation of more navigation features	2	set up railways info page & content	2	routing for different pages
5. Jun							2	implementation: average time between cities
6 Jun			2	merging branches, explaining some css, checking progress	2	merging branches, explaining some css, checking progress	2	merging branches, explaining some css, checking progress
7 Jun			2	adjust routing for deployment			2	setting up store and different modes of the application
8 Jun	4	making time table work properly in webpage			2.5	work on railways info content	4	interaction for path between two points, fly to current extent
10 Jun			2	merging branches, release on gh pages, adapting some features in navigation	2	merging branches, release on gh pages, adapting some features in navigation	2	merging branches, release on gh pages, adapting some features in navigation
13Jun					3	make railways info page responsive	3	adding data for railroads, changing slider
15 Jun	5	styling time table and adding location	5	new input fields, adjust stylings				
16 Jun	6		7	timetable template, merging branches	2	adjusting base map	1	helping Rica to rebase git branch
17 Jun	5	fixing bugs, working on timetable, changing basemap	5	fixing bugs, working on timetable, changing basemap	5	fixing bugs, working on timetable, changing basemap	5	fixing bugs, working on timetable, changing basemap
17 Jun	1	adding path of train to map in timetable mode	2	making adjustments in sidenavigation	2	fixing license content	2	adding labels (country names) on top of all layers
18 Jun	2	making popups in timetable mode on-click	6	fixing bug in sidenavigation, add redux for sidenav			2	adding real rail routes for some cities, deploying the app
Sum hours	42.5		40		36.5		41
